

# CLYDESDALE

SERIES by StateWide

## Introducing the Clydesdale Series Doors from StateWide

There's a new group of horse and livestock trailer feed and manger doors that is stronger and more durable than anything previously available on the market. They're called the Clydesdale Series of heavy-duty feed doors, and you can only find them at StateWide Windows.

*A mill extrusion with a longer flange, graphite pins and heavy-duty components are evident at first glance on the Clydesdale Series. Stronger hinges are welded to the frame rather than riveted.*

### THE CLYDESDALE QUALITY ADVANTAGE CHECKLIST

The StateWide Clydesdale line can replace doors built by OEMs in-house to free up skilled labor and production cost. In addition, let StateWide enhance the quality of your product while enhancing customer satisfaction on feed doors.

- ✓ Milled extrusions
- ✓ Longer, more robust flanges
- ✓ Hollow flanges for added strength
- ✓ Graphite pins
- ✓ High-quality, consistent TIG welds
- ✓ Available skinned or non-skinned
- ✓ Virtually no racking
- ✓ Weighted balance in the unlatched position keeps the window upright for added safety

## **About StateWide Windows— Building Windows On the Move Since 1940**

StateWide Windows was born from humble beginnings in 1940, originally founded as a storm door manufacturer that quickly transitioned into an aluminum extruder, eventually entering the aluminum window market in the 1980's.

Since StateWide built bonded windows for truck caps since 1997, it easily transitioned into frameless bonded windows for the RV industry in 2005 when these windows first became popular. In 2013, StateWide officially changed its name from Statewide Aluminum to StateWide Windows to more accurately reflect the products being produced and marketed.

Today, StateWide supplies the RV window market with a frameless, bonded window design. In the last three years, it has steadily grown this market

and projects significant growth in this segment over the next five years.

### **A Supplier Backed by a Culture of Quality**

- StateWide has been in the bonded window market for truck caps since 1997—producing windows for Leer and its holding company Truck Accessories Group LLC (TAG) North America's largest manufacturer and supplier of fiberglass and aluminum truck caps and tonneau covers.
- When you do business with StateWide you are working with a supplier backed by both TAG and its holding company J.B. Poindexter & Co., Inc., a 1.25 billion dollar privately held diversified manufacturing company.

### **STATEWIDE RV WINDOW QUALITY CHECKLIST**

- ✓ Many StateWide field representatives have engineering and manufacturing backgrounds in the transportation window industry—designing and developing bonded windows in the industry before joining the StateWide sales team.
- ✓ Count on StateWide Windows to build to your OEM specifications on a size consistent basis that make our windows easier to install on the assembly line.
- ✓ We use higher quality, American made scissor operators that reduce vibration noise, stay closed and limit warranty claims to increase customer satisfaction.
- ✓ Higher quality components and better engineering in-house is the true test that makes StateWide your best supplier.

*From picture windows to single and double-vented windows, StateWide now manufactures an incredible variety of RV windows in a variety of custom sizes.*
